Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Discussed how prior art differs from claimed invention. Notably discussed that ~~intended~~ communication result is not specifically for e-mail transmission, but rather only for communication, as seen in Figs. 10 + 11. Initially, examiner agrees with applicant with respect to this limitation. ~~He~~ and will reconsider ~~the~~ claim language which would ~~not~~ distinguish this feature.
